Legal Task Assistance

Deposition Support

- Understand the facts of the matter and create fact-based strategies for taking or defending depositions.
- Determine what technology approaches best suit your goal to identify important documents and potential deponents.
- Improve processes for deposition preparation through data analysis and narrative fact memos, as well as document summaries, timelines, and deposition outlines.

Motion Practice and Fact Research

- Quickly and thoroughly identify facts and documents that will support summary judgment and other substantive motions.
- Obtain summaries and excerpts of documents to support motions utilizing advanced technologies.

Fact and Expert Witness Preparation

- Find documents and develop themes for fact and expert witnesses, as well as data that responds to and counters factual assertions made by opposing party witnesses.
- Analyze expert reports submitted by opposing parties and develop commentary on reviewed articles and studies that are advanced to support the experts' conclusions.

Hearings and Trial

- Create electronic trial binders in collaboration with the legal team to present evidence at hearings and trial.

Appeal

- Identify key testimony and exhibits that support the appellate process.

Epiq Differentiators

- Coherent and defined program
- Consistent team guidance and legal team collaboration throughout second-level review and litigation
- Programmatic approach
