

Maximize business value from contracts.

Identify opportunities and manage risks in your contracts across people, process, technology, and data with experts in CLM strategy, implementation, and operational support.

- Build a strategic roadmap and business case for investment.
- Provide right-time insights for contracts transactions and relationships by seamlessly connecting CLM with upstream and downstream systems.
- Drive revenue growth, manage risks, reduce costs, and identify significant non-compliance with AI-enabled contracts intelligence.
- Increase the capacity of your team during spikes in contracting volume caused by increases in business activity, M&A transactions, or regulatory changes.

~1000
contracts solutions projects completed for global Fortune 5000 companies.

~275
global CLM implementations with 100,000 trained users.

~10 million
contracts migrated.

~100 million
extracted data points.

Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specializing in legal and compliance.

Drive decisions with AI-enabled solutions that combine people, process, technology, and data.

Epiq Differentiators

- Epiq Contracts Solutions can be combined with other Epiq services to meet client objectives.
- Proprietary AI and Machine Learning for migration and cleansing, and subsequent analysis of contracts data extraction and migration.
- A dedicated team that works exclusively on contracts solutions projects, including contracts management, IT, legal operations, and change management experts.
- Implementation partnerships with Agiloft, Conga, Contract PodAI, Ironclad, IntelAgree, and Malbek.

End-to-End Contracts Solutions

Contracts Data Migration

Capture data and migrate to the CLM repository.

Contracts Functional Assessment

Build a roadmap for improving the contracts process.

CLM Implementation and Optimization

Determine CLM requirements, system integrations and workflows.

Contracts Intelligence and Gen AI

Tech-enabled review and analysis of contracts to support better decision making.

Contracts Organization Optimization

Define ideal future team, skills, roles, and structure.

CLM Vendor Selection

Prioritize requirements, shortlist vendors, and facilitate RFP or selection process.

Flexible Legal Talent

Complete contracts faster and more cost-effectively with flexible legal talent.

Managed Services

Manage CLM system administration and contracts administration.

Reporting and Analytics With Metrics That Matter

Use contracts data to make faster and better decisions, leading to revenue enhancement, cost reduction, and risk mitigation.

Template and Playbook Development

Harmonize clauses and consolidate, deconstruct, and create templates into a CLM and deliver outcomes with contracts playbooks.
