# Maximize business value from contracts.

Partner with experts to solve contracts management challenges through contracts advisory, contracts review, CLM implementation, and AI-enabled insights.

- Maximize contracting process efficiencies by building a strategic digital transformation roadmap and a business case for investment into Contract Lifecycle Management (CLM).
- Gain insight into your contracts to facilitate M&A due diligence, obligation management, and incident response by leveraging contracts intelligence data with AI-enabled extraction and analytics.
- Improve contracts data and process visibility through reporting and dashboards with smart KPIs aligned to business goals.
- Increase the capacity of your team during spikes in contracting volume caused by increases in business activity, M&A transactions, or regulatory changes.

~1000
contracts solutions projects completed for global Fortune 5000 companies.

~300
global CLM implementations with 100,000 trained users.

~10 million
contracts migrated.

~100 million
extracted data points.

Why Epiq Legal Solutions?

Experience the advantage of services from a partner specializing in legal and compliance.

Drive decisions with AI-enabled solutions that combine people, process, technology, and data.

Epiq Differentiators

— Epiq Contracts Solutions can be combined with other Epiq services to provide an integrated solution.

— Proprietary AI and Machine Learning for migration, cleansing, and subsequent analysis of contract data extraction and migration.

— A dedicated team that works exclusively on contracts solutions projects, including contract management, IT, legal operations, and change management experts.

— Implementation partnerships with **Agiloft, Conga, Contract PodAI, Ironclad,** and **Malbek.**

End-to-End Contracts Solutions

Contracts Administration

Augment in-house teams with experienced contracts managers and ongoing contracts intelligence.

Contracts AI Solutions

Integrate AI-Enhanced CLM Services to automate negotiation, risk assessment, and compliance tracking.

Contracts Data Intelligence

Build, test, and deploy business intelligence (BI) dashboards.

Contracts Review and Analysis

Drive revenue growth, manage risks, reduce costs, and identify non-compliance through AI-enabled contracts extraction, intelligence, and clause validation.

Contracts Template and Playbook Services

Develop and refine standardized contract clauses, templates, and playbooks.

CLM Implementation and Optimization

Leverage the top CLM and AI technologies.

CLM Legacy Contracts Migration

Standardize, capture, and migrate your organization's agreements and data into a single source of contracts repository.

CLM Managed Services

Support ongoing CLM maintenance and end-user queries with CLM best practices.

CLM Transformation Strategy

Assess the contracting function, identify gaps, and define enterprise-wide CLM requirements from Sales to Procurement, Legal, Finance, and IT.

Flexible Legal Talent

Increase the capacity of your team during spikes in contracting volume caused by increases in business activity, M&A transactions, or regulatory changes.
