# Optimize your discovery program with access to experts, proven processes, technology, and services, all at a predictable monthly cost.

Empower your team with eDiscovery backed by data security, defensible workflows, AI-based analytics, direct administrative capabilities, business intelligence reports, and cost predictability across your portfolio of matters.

- Stabilize discovery costs with predictable monthly billing for a set capacity of hosting, users, and other services during your 3-year contract.
- Find data early in the discovery process, accelerate review, and identify privileged and confidential business content with unlimited access to AI tools.
- Fund your capabilities with a cost recovery or cost allocation program.
- Make informed decisions with reporting that provides insights into your data, your business, and KPIs.
- Optimize your use of cloud-based discovery tools using on-demand RelativityOne business intelligence dashboards.
- Securely access applications and reporting via single sign-on and the Epiq Service Cloud.
- Self administer your workflows or utilize Epiq staff.

A Programmatic Approach to Discovery

Data Migration	Implementation	Tailored Workflows and Strategy
Process Optimization	Cost Recovery	Advanced Analytics and AI Tools
