Simplify, accelerate, and reduce the cost of evidence discovery.

Preserve, analyze, and review large volumes of data with an AI-enhanced platform that reduces time to resolution for legal, compliance, and investigative matters. Keep data in a single, secure location and apply embedded AI capabilities including text summarization, translation, transcription, and PII detection.
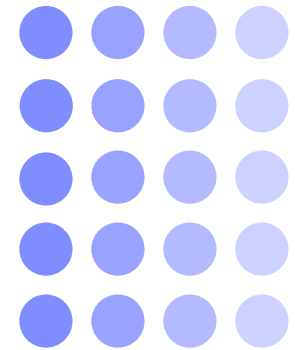

Corporations	Law Firms	Government Entities
Reduce reliance on external legal resources with an easy-to-use discovery tool for managing and analyzing large data volumes.	Facilitate collaboration between your law firm, suppliers, and clients with workflow and information-sharing capabilities.	Tackle records backlogs and public records requests using a wizard-driven production tool for reporting, tracking, and sharing.
Decrease time and cost of matters through advanced document culling and review.	Simplify your matter workflow by managing varying case sizes with a scalable platform.	Protect privileged information with top-grade security and automated redaction tools.
Quickly understand risk exposure with AI-driven text summarization and early data assessment.	Extract and highlight key information for negotiations, depositions, and court proceedings utilizing AI-driven document summarization.	Secure your defense related data with a solution that meets ITAR's stringent standards.

2 to 5 times faster processing

50% overall time savings with reduced complexity

50 to 80% platform cost savings

99% matters handled with right-sized platform

Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specializing in legal and compliance.
